Summary

If I want to say a little about myself, I have to mention the high ability to learn and adapt quickly to the environment! I am an engineer who is interested in writing and sports! As I mentioned in my resume, I am very interested in engineering softwares. I always like to learn and I never find myself in a perfect skill, but I believe I always have room for improvement. I am very disciplined, I try to use other people's opinions on my work. Others call me a rational person.

* Senior Civil Engineer - Construction Management

* Teacher assistant At Islamic Azad University
