

Muhammad Salehi
Planning & Project Control Manager

Email: Salehi55598@gmail.com

Year of Birth: 1977

Phone: +989179491868

Highlights of Qualifications

With nearly twenty-two years of experience in the oil and gas industry, particularly in offshore projects, I have served in both management and supervisory roles, contributing to the successful execution of complex engineering and construction projects. I am highly committed to professional ethics, effective communication, and teamwork, while also being capable of working independently and managing tasks efficiently.

I possess strong technical and analytical skills in developing and maintaining logic-linked baseline schedules, including project and company cash flow management, resource planning, short-interval planning, progress updating, and delay analysis.

My expertise extends to S-curve analysis and the development and implementation of cost control systems.

I am proficient in performing delay analyses using recognized methodologies such as IAP, TIA, CAB, and APAB, as well as preparing and verifying change orders and claims in accordance with project and contract requirements.

I am proficient in Primavera P6, MS Office, Excel VBA, and Pert Master.

I also maintain a strong professional interest in data science, neural networks, artificial intelligence, machine learning, game theory, fuzzy logic, contract and claim strategies, tender package and Power BI.
