I am a scientist researcher who is very interested in finding new therapeutic approaches. As a scientist researcher with a strong interest in discovering new therapeutic approaches, your work likely involves exploring innovative strategies to address unmet medical needs. This could include investigating novel drug targets, developing advanced treatment modalities, or leveraging cutting-edge technologies such as gene editing, immunotherapy, or precision medicine. Your passion for advancing healthcare solutions positions you to make a significant contribution to the scientific community by translating research findings into practical, life-changing therapies.

Professional Experience

September
2018 -
December
2021

researcher

comparative biomedical sciences, Fars , Iran

Ethical considerations and regulatory approval are crucial throughout the process to ensure compliance with animal welfare guidelines.

September
2012 - August
2017

researcher

Endocrine metabolism research center , Tehran , Iran

This field requires a strong foundation in bioinformatics, structural biology, and computational techniques. Proficiency in programming languages like Python, R, or C++ and familiarity with tools like PyMOL or Chimera can also be advantageous.

Education

November
2018 -
September
2021

Assistance professor researcher in Comparative biomedical science

Shiraz university at Shiraz

August 2013 -
December
2016

Assistance professor researcher in molecular genetics

Gonbad kavous university at Gonbad kavous

August 2008 -
November
2012

Bachelor in Plant biology

Damghan university at Damghan

Key Skills

Writing scientific
papers- Edit papers-
laboratory technician-
Research potency-
Research
collaborating
motivation- Research
management potency-
Ability team work-
Bioinformatic research
potency- AI
application in creative
paper subject
innovative

Accomplishments

November
2022

**Rank 1
PHD exam**

Volunteering

August 2023 -
October 2025

**Research collaborating
Iran. tehran. square resalate. , karaj**

Certifications

February
2025

**Women forum conference
London research center**

Languages

- English

Interests

My interest items are read book, walking, music, travel My interests include reading books, walking, engaging in sports, and listening to music.

Software

- Word- power point- internet search machine- editor paper tools

Custom Section

August 2023 -
October 2025
